## Unleash Your Collision Shop's True Profit Potential!

EEWA557ACRNA

### Upgrade your Shark Measuring System with the Award-Winning Technology of the Prism Portable Imaging Aligner!

- Eliminate the need and extra expense of outsourcing alignment work after repairs - keep the revenue in-house!
- Use one workstation to perform both collision repair and wheel alignment! A major space-saving feature when compared to having two separate workstations!
- Live measurements enable the technician to receive immediate results of adjustments, maximizing efficiency and saving time
- User-friendly interface makes every technician an expert with easy-to-use graphics and job aids
- Works in small areas - perform alignments literally anywhere in your shop!
