<b>Tie-Downs:</b>	72	82	92
<b>Down Pulls:</b>	106	118	130

# Collision Repair Solutions That Help You P

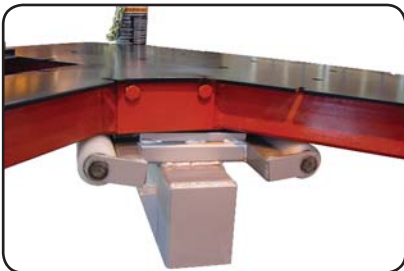

## Positive Anchoring with Ease

The three-way adjustable unibody pinchweld clamps provide for infinite positioning to properly anchor the vehicle. The "drive-over" underbody clamp bases may remain attached to the platform surface. Optional specialty anchoring clamps are available for cars and trucks.

## Towers with Casters (Power-Pro CT)

The Power-Pro CT series rack is equipped with two easy rolling towers which may be positioned anywhere around the platform perimeter. Each tower carriage easily rotates and can be pinned in multiple positions to achieve the exact pull angles needed.

## Towers with Bearings (Power-Pro BT)

The towers can be moved effortlessly 360° around the frame rack, using smooth roller bearings to assist the operator.

## Air Hydraulic Pumps

### Power-Pro BT

Fluid filled Gauges Provide for reliable pressure readings at the hook. (Three air hydraulic foot pumps come standard.)

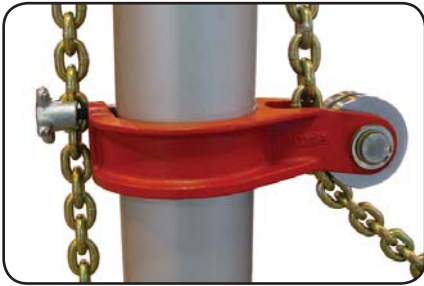

### Power-Pro CT

The Power-Pro CT series is equipped with hydraulic foot pumps. (Two air hydraulic foot pumps come standard.)

# Profit Today And Prepare For Tomorrow.

## Infinite Positioning of Pull Collars

Variable-position pull collars provide for unlimited positioning for the correct alignment with the pull being made.

## Strong and Dependable

The BT/CT frame rack's 6.5" deck profile provides you with a strong and dependable rack with unbelievable pulling power.

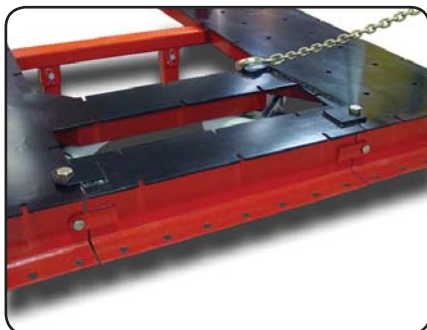

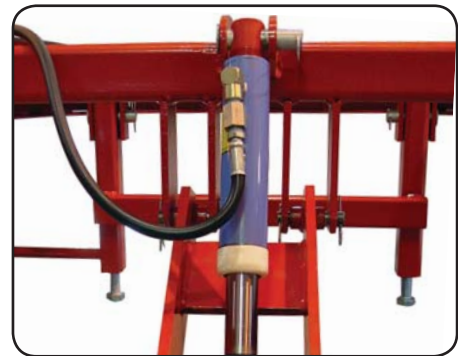

## Quick Loading

The Power-Pro's removable drive-on ramps coupled with the platform hydraulic tilt feature facilitates easy drive on vehicle loading.

## Lifting Power

10,000 lb lifting capacity provides you with more than enough strength to pick-up the vehicles you will encounter.

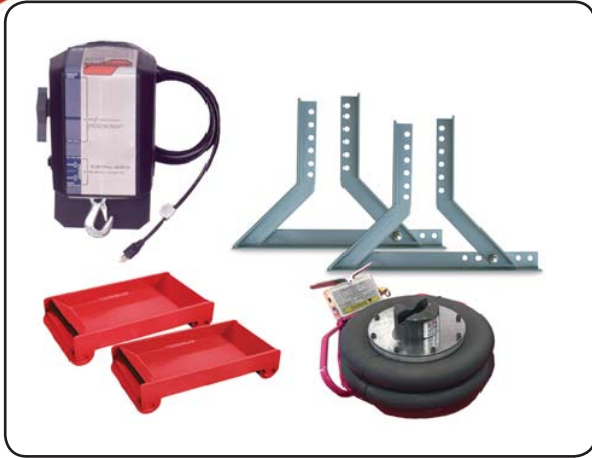

## Front and Rear Removable Cross-Members

Perform a front-end pull removing mash, and then remove the cross-member to gain unrestricted access to the vehicle.

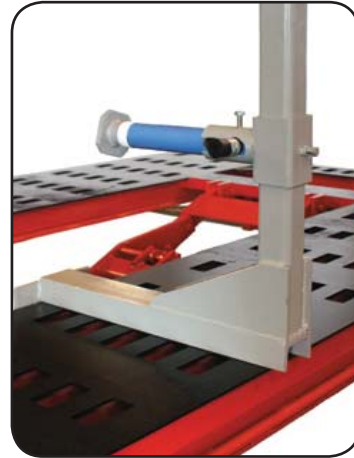

## Optional Accessories

### Vehicle Loading Package

9020030 (Includes: winch, wheel stands, car dollies, and 2 bag air jack)

### Pushing Post with Ram and Pump

9025018

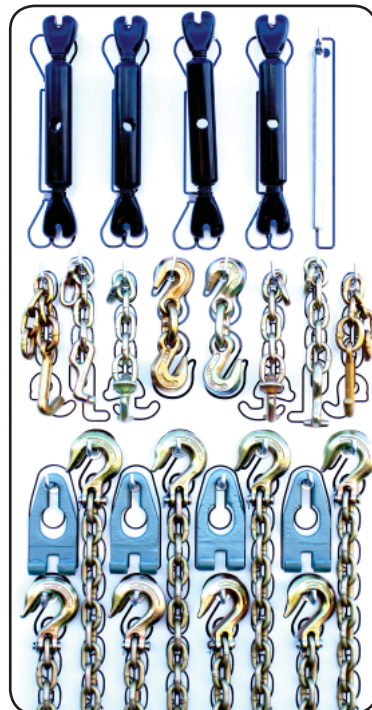

### Overhead Pull with Collar

9025050

### Down Pull

9025008

### Truck Tie-Down Board

9020026 (Includes: 4 chain tighteners and helper bar, 2 GM R hooks, 2 Ford T hooks, 2 Chrysler S hooks, 2 double grab hooks, 4 trac hooks, 4 4'x13/32 chains with slip hooks, 4 6'x13/32 chains with slip hooks)

# Features and Benefits

## Light-weight Vehicle Loading Ramps

## Front & Rear Removable Cross-Members

Gain complete access to vehicle for repairs

## Front & Rear Wheel Chocks

Prevents forward and backward movement of the vehicle

## Infinite-Positioning of Pull Collars

For the correct alignment of the pulls

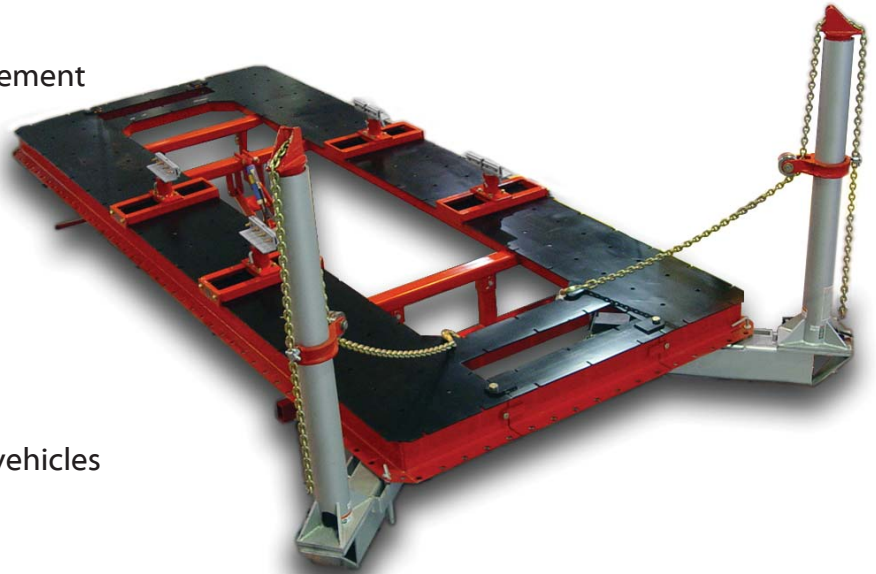

## 10,000 lbs. Lifting Capacity

Lift the heaviest of vehicles

## Specialty & Frame Anchoring Options

For BMW, Mercedes, Honda & frame vehicles
