## 4-Post

## GENERAL SERVICE LIFTS

# 4-Post

Enhance your shop's productivity with Hofmann's 4-Post Specialty Lifts. These lifts are designed and constructed with wide-width runways that do not require repositioning from car to truck services. Their industrial-strength runways increase structural integrity and provide a uniform flat surface. The hidden lifting cylinder under the runway improves accessibility and prevents door damage.

## Features

- Pre-positioned wide-width runways do not require repositioning from car to truck services.
- Industrial-strength runways for increased structural integrity and a uniform flat surface.
- Hidden lifting cylinder under the runway improves accessibility & prevents door damage.
- Larger pulleys and heavy pre-stressed steel cables allow for long life, reduced maintenance and added safety.
- Triple back-up safety systems:
  - Mechanical locks on each column.
  - Auto-engaging mechanical locks.
  - Hydraulic pressure safety valves.
- Low-profile lifts with full-length approach ramps handle most low-profile vehicles.
- ANSI/ALI certified to ALCTV:2011.
