

OPTI-TREAD®

DIAGNOSTIC TOOL
FOR TIRE TREAD
DEPTH, TIRE
PRESSURE AND
VEHICLE SAFETY

TREAD ANALYSIS IN UNDER A MINUTE

- Just one minute is all it takes to perform an *Opti-Tread* inspection on a four wheel vehicle
- When the inspection is complete the program prints the tire audit report
- The tire audit report helps customers understand the condition of their tires and why the technicians make their recommendations

WIRELESS, PRECISION TOOLS

- Measurements from the probe are sent to the workstation wirelessly using a Bluetooth® signal
- Electronic measurements reduce errors and increase accuracy
- Increases tire sales, alignments and other underbody work

product features & specifications

Features

Customer Confidence

Opti-Tread® provides a uniquely easy to understand tire audit report that helps the customer see exactly what the mechanic sees. Understanding the information behind recommendations for service builds the trust and confidence a customer needs to proceed

Help Videos

Detailed “how to” and “what if”

Ease of Use

Simply scan the “Start” barcode and take the measurements. The Scanner will automatically upload and print the tire audit report

Fast Inspections

A one minute *Opti-Tread* inspection provides a detailed tire analysis that not only identifies tire problems but can also help identify alignment/balance and other underbody issues

SPECIFICATIONS

Tread/Pressure Probe

- Takes electronic tread depth and pressure measurements on all cars of all ages
- Sends measurements to the scanner

Opti-Tread Scanner

- Acts as the command center for the system
- Stores measurements taken with the probe
- Sends inspection data up to the desktop software

Opti-Tread Reel

- Keeps the Opti-Tread Scanner out of the way but still in reach
- Leaves both hands free to operate the tread and pressure device
