

# OPTI-TREAD®

Diagnostic Tool for  
Tire Tread Depth,  
Tire Pressure and  
Vehicle Safety

## TREAD ANALYSIS IN UNDER A MINUTE

- Just one minute is all it takes to perform an *Opti-Tread* inspection on a four wheel vehicle
- When the inspection is complete the program prints the tire audit report
- The tire audit report helps customers understand the condition of their tires and why the technicians make their recommendations

## WIRELESS, PRECISION TOOLS

- Measurements from the probe are sent to the workstation wirelessly using a Bluetooth® signal
- Electronic measurements reduce errors and increase accuracy
- Increases tire sales, alignments and other underbody work

# PRODUCT FEATURES & SPECIFICATIONS

## FEATURES

### Customer Confidence

Opti-Tread® provides a uniquely easy to understand tire audit report that helps the customer see exactly what the mechanic sees. Understanding the information behind recommendations for service builds the trust and confidence a customer needs to proceed

### Help Videos

Detailed “how to” and “what if”

### Ease of Use

Simply scan the “Start” barcode and take the measurements. The Scanner will automatically upload and print the tire audit report

### Fast Inspections

A one minute *Opti-Tread* inspection provides a detailed tire analysis that not only identifies tire problems but can also help identify alignment/balance and other underbody issues

## EQUIPMENT

### Tread/Pressure Probe

- Takes electronic tread depth and pressure measurements on all cars of all ages
- Sends measurements to the scanner

### Opti-Tread Scanner

- Acts as the command center for the system
- Stores measurements taken with the probe
- Sends inspection data up to the desktop software

### Opti-Tread Reel

- Keeps the *Opti-Tread* Scanner out of the way but still in reach
- Leaves both hands free to operate the tread and pressure device
