

Mobile Column

Specialty Lift

Heavy-Duty, Space-Saving, Mobile

John Bean Mobile Column Specialty Lifts are a great addition to any shop. Four Mobile Column Lifts support up to 64,000 pounds in lifting capacity; six support up to 96,000 pounds! Their space-saving mobile design allow for ease-of-use and easy storage in your shop. Mobile Column Specialty Lifts can be operated individually, in pairs, or all at once - allowing for two-tier lifting! Optional accessories, such as Axle Stands which increase safety while servicing vehicles, Light Vehicle and Small Wheel Adapters, make Mobile Column Specialty Lifts versatile and capable of handling heavy-duty and light truck applications.

FEATURES

- Automatic synchronization and communication between columns
- Phase Control – automatically selects proper phase rotation
- Three modes of operation: single column, paired columns, or all columns – allows for two-tier lifting!
- Manual emergency lowering controls
- High safety rating – ensured by independent locking device and non-contact limit and safety switches
- Electronic self-diagnostics
- Low-friction, recirculating ball screw lifting system
- ALI/ETL certified to the current ANSI/ALI ALCTV:2006 standard

JBC4066MC
