Automotive Lift

4-Post Value Line Automotive Lift

Enhance your shop's productivity with John Bean's 4-Post automotive lifts. These lifts are designed and constructed with wide-width runways that do not require repositioning from car to truck services. Their industrial-strength runways increase structural integrity and provide a uniform flat surface. The hidden lifting cylinder under the runway improves accessibility and prevents door damage.

Features

- Pre-positioned wide-width runways do not require repositioning from car to truck services
- Industrial-strength runways for increased structural integrity and a uniform flat surface
- Hidden lifting cylinder under the runway improves accessibility and prevents door damage
- Larger pulleys and heavy pre-stressed steel cables allow for long life, reduced maintenance and added safety
- Triple back-up safety systems:
 - Mechanical locks on each column
 - Auto-engaging mechanical locks
 - Hydraulic pressure safety valves
- 52" approach ramps have a gentler drive-on angle for low-profile vehicles
- Low-profile lifts with full-length approach ramps handle most low-profile vehicles
- ALI/ETL/CSA certified

SPECIFICATIONS

	Lifting Capacity	Overall Width	Overall Length	Runway Surface	Runway Width	Width Between Runways	Raised Height	Lowered Height	Lift Time	Shipping Weight
43102Q	12,000 lbs.	134 1/2"	251 1/2"	208"	22"	40"	70"	7 1/2"	60 sec.	2,850 lbs.
43102QE	12,000 lbs.	134 1/2"	289 1/2"	246"	22"	40"	70"	7 1/2"	60 sec.	3,200 lbs.
43212L	12,000 lbs.	137"	266"	204"	24"	36"	71"	9 1/2"	60 sec.	3,750 lbs.
44218QF	18,000 lbs.	152"	303 1/2"	242"	24"	40"	72"	9 1/2"	64 sec.	5,465 lbs.

Standard power requirements for all lifts: 230V, 1Ph, 60Hz. Visit www.snaponequipment.com for the latest product offerings and detailed information.
