

Tire Changing Solutions

T900
Tire Changer

JohnBean™

Designed for Low-Volume Shops

The John Bean T900 is designed to meet the tire changing needs of low-volume shops while providing the quality of service only John Bean can provide. This tire changer is constructed with a rugged steel base, polymer valves, a standard lubricator, and can service a wide range of wheel and tire assemblies.

EEWHUS538A

Features

- Rugged construction - built to last.
- Steel mount/demount head with protective inserts.
- Cam-operated lock raises the mount/demount head vertically to avoid wheel contact.
- Large adjustment knob locks the lateral movement of the mount/demount head.
- Standard lubricator/water separator ensures long valve life.
- Polymer valves eliminate rust and contamination.
- Large double-acting bead breaker cylinder.
- On-board pressure-limited inflation with inflation gauge.
