

# Heavy-Duty Hand-Spin Truck Wheel Balancer

## Heavy-Duty Hand-Spin Wheel Balancer

This Heavy-Duty Hand-Spin Wheel Balancer features a fast balance cycle, a live display of wheel dimensions and is user-friendly. Power-saving features increase the life of the balancer and save you money. Patented features such as it's hand-spun low-speed operation and hand-operated wheel lifting mechanism increase this balancers safety and portability.

EEWB517A

## Features

- Portable and compact - Balancer can be taken to the vehicle on or off-site and utilizes minimal shop space.
- Integrated battery automatically recharges when the unit is connected to a power supply. The balancer conserves energy by automatically powering down when not in use, and powering up when mounting a wheel and tire assembly.
- Patented hand-operated wheel lifting mechanism eliminates lifting of heavy wheel and tire assemblies.
- Dynamic, static and 4 ALU modes for greater wheel balancing flexibility .
- Optional adapters available for servicing a wide range of trucks.
- Durable and easy-to-use rotary knob for data input.
- Sealed aluminum die-cast suspension housing eliminates moisture and dust contamination.
