

# MAGNA RACK CT SERIES FRAME RACKS

***magna RACK CT***

## MAGNA RACK CT SERIES FEATURES

Kansas Jack builds the world's most productive collision repair equipment. Building world-class relationships with our customers and industry partners results in unparalleled solutions for today's collision repair facilities. Regardless of your size we understand your needs and our equipment is designed to meet those needs. Blackhawk has a history of innovation in equipment design. Equipment specifically designed to enhance productivity and assure that your repairs are done right the first time every time thus assuring the shop's maximum profitability.

### Features and Benefits

- Light-weight Vehicle Loading Ramps
- Front & Rear Removable Cross-members - Gain complete access to vehicle for repairs
- Front & Rear Wheel Chocks - Prevents forward and backward movement of the vehicle
- Infinite-Positioning of Pull Collars - for the correct alignment of the pulls
- Specialty & Frame Anchoring Options - For BMW®, Mercedes®, Honda® & frame vehicles

### Positive Anchoring with Ease

The three-way adjustable unibody pinchweld clamps provide for infinite positioning to properly anchor the vehicle. The "drive-over" underbody clamp bases may remain attached to the platform surface. Optional specialty anchoring clamps are available for cars and trucks.

### Air Hydraulic Pumps

The Magna Rack CT series is equipped with hydraulic foot pumps. (Two air hydraulic foot pumps come standard.)

### Towers with Casters

The Magna Rack CT series rack is equipped with two easy rolling towers which may be positioned anywhere around the perimeter. Each tower carriage easily rotates and can be pinned in multiple positions to achieve the exact pull angles needed.

# MAGNA RACK CT SERIES FEATURES

## Infinite Positioning of Pull Collars

Variable-position pull collars provide for unlimited positioning for the correct alignment with the pull being made.

## Strong and Dependable

The CT frame rack's 6.5" deck profile provides you with a strong and dependable rack with unbelievable pulling power.

## Quick Loading

The Power-Pro's removable drive-on ramps coupled with the platform hydraulic tilt feature facilitates easy drive on vehicle loading.

## Lifting Power

10 ton hydraulics provide you with more than enough strength to pick up the vehicles you will encounter.

## Front and Rear Removable Cross-Members

Perform a front-end pull removing mash, and then remove the cross-member to gain unrestricted access to the vehicle.
