## New John Bean V3400 Wheel Alignment System: The Latest in Alignment Technology

**Conway, AR – May 6, 2014** – John Bean introduces its new V3400 Wheel Alignment System. Fast, accurate and built-to-last, the new John Bean® V3400 provides unsurpassed features and benefits that make this alignment system unlike anything on the market today.

“The accuracy, repeatability and quality of new John Bean V3400 are unmatched,” said Adam Brown, product manager for Snap-on Equipment. “With precise alignment readings in only two minutes, an array of software productivity enhancers and a comprehensive vehicle data base with frequent updates, the V3400 is specifically designed to make shops more successful and profitable.”

The new *John Bean* V3400 Wheel Alignment System features unsurpassed advantages, including:

- **Fast, Accurate Readings** – readings in less than two minutes mean increased productivity and less waiting for measurements
- **Fully Featured Hardware** – features like drive through design, wireless communication, automatic camera tracking and high mobility allow sharing between bays or relocation within the shop as needed
- **Software Productivity Enhancers** – features like automated caster sweep, 3D animations, rolling radius and cross diagonal measurement, A-arm adjust and EZ Toe to get the job done right the first time
- **Comprehensive Vehicle Database** – frequent updates ensure the most current information is readily available and VIN scanning speeds the vehicle selection process

Optional features of the *John Bean* V3400 include AC400 clamps that only engage the tire, eliminating the possibility for damage to the rim.

“John Bean has been the leader in wheel alignment innovation since 1925,” continued Brown. “By providing more functionality, superior service and an extensive array of shop solutions, John Bean is second-to-none when it comes to helping shops perform more alignments more quickly and efficiently.”

Customers can find out more about the new *John Bean* V3400 Wheel Alignment System and other wheel service products by calling 877-482-4866 or visiting [www.johnbean.com](http://www.johnbean.com).
